

## Value Engineered Products

<b>Circuit Works Corporation</b>	Printed circuit board production, product assemblies, surface mount, through-hole and Ball Grid Array (BGA) capabilities, in-line testing, final test and value added assembly.
<b>Olsun Electrics Corporation</b>	High quality customized power and distribution dry-type transformers and reactors.
<b>Transformer Manufacturers Inc.</b>	Custom electronic transformers, coils, toroids, and industrial grade control transformers.
<b>Total Power International</b>	Box built AC/DC switching supplies; encapsulated DC/DC power supplies; open frame DC/DC & AC/DC switching power supplies; and desktop and wall mount AC/DC switching power supplies.
<b>American Electronic Components, Inc. Durakool/Hermaseal</b>	Extensive range of high performance electromechanical relays and contactors; tilt and tip-over switches; float switches; liquid sensors; g-force sensors and switches; and hermetic seals.
<b>Precision Engineered Products</b>	Integrated solutions in specialty and clad metals, metal plating, stamping, and precision plastic injection molding.
<b>Intersol Industries Inc.</b>	Custom designed solenoids and electromagnetic solutions.
<b>Erico</b>	Precision-engineered panelboards and Eriflex Flexibar (flexible busbar)
<b>BACO Controls</b>	Heavy-duty push buttons, pilot lights, selector switches and contact blocks.
<b>Dynamic Electronics Engineered Solutions</b>	Through alliances with companies Dynamic Electronics can integrate one or all of the products represented into a final product.
